ROGERS CORPORATION

PORON® Urethane Foams

Color Options for Industrial Materials

PORON® urethanes are manufactured in the standard colors shown. A wide range of additional color options, including over 80 developed colors, are available with a minimum order quantity. Color development for custom colors is also available to meet your specific needs. Please note that not all colors are available in every formulation. Call a Rogers' Customer Service Representative at 800.755.6766 or 860.928.3622 for further information.

Ordering Information
An indication of the range of additional color options that are available on special order is shown. PORON Industrial materials are available on a "make to order" basis. Lead times will increase for non-standard materials. (Custom color development will further increase lead times.)

Notes

1. Soft Seal Gray 90 color is available for Soft Seal (15 formulation) only.

2. 60 Formulation is only available in Black 04 and Natural 33 (Unpigmented)

Sampling
To place an order for a custom color sample please contact a Rogers' Customer Service Representative.

Minimum Order
A minimum order quantity of 5,000 square feet (465 meters²) and an upcharge applies when ordering any color other than standard. Non-standard colors are produced as special lots and shipped "Lot Complete" at +/- 10% of order quantity.

Custom Color Development
The minimum order quantity as well as color matching or development charges apply to custom colors. Typical minimum order quantity for development is 20,000 ft².

Cancellation
Order cancellations or returns are subject to a 100% production or restocking charge.
